Dear Sir or Ma'am,

I am opposed to the compressor station with all my heart and soul. Not only is the pipeline itself unnecessary to meet our national energy needs into the future, but it will irreparably harm Buckingham. Please do what you can to protect our air, land, and water from the scourge of the petrochemical industry. We don't need fossil fuels nearly as much as we need a new energy policy designed to meet demand sustainably. This project is a dinosaur.

Thank you from a Buckingham resident.

Joseph Anthony
